J BRAND

"My Customer, My Responsibility"

85 Years of Service

Company Overview

"My Customer, My Responsibility" is the core business philosophy at J Brand. We have a determination to deliver solutions, on time, within budget, and to a first class standard – every time. It is this attention to detail that means our clients see J Brand as "a key and valued strategic partner".

ELECTRICAL & FIRE ALARM SERVICES

J Brand's origin was as an Electrical contractor, so with over 85 years' experience, we can confidently state we are experts in all aspects of electrical work. From small reactive and planned maintenance works, to large nationwide rollouts, our registered electricians provide a tradesman eye on quality.

NETWORK INFRASTRUCTURE

J Brand are experts in data network installations and has the experience, accreditations and qualifications to both transform and support your entire network infrastructure. We are specialists in multi-site roll-outs, data centres, distribution centres, offices, refurbishments and new builds.

WIRELESS NETWORKS

Partnering with the leading software & hardware providers, J Brand has become the 'go-to' partner for wireless surveys and installations throughout Europe. Our many surveyors have the further benefit of understanding the cabling and infrastructure requirements, which is a critical part of any survey. Put simply, if we survey, your wireless network and associated installation will meet your requirements and be installed to the prevailing standards.

DIGITAL SURVEILLANCE & ANALYTICS (INCORPORATING IP CCTV & ACCESS CONTROL)

An eye in the sky, a virtual cop in your shop. Knowing who is in your premises, when and why, having immediate access and notifications tailored to your existing network. We can help to ensure that you choose the best system, and ultimately deliver rapid ROI.

HARDWARE DEPLOYMENT SOLUTIONS

In 2003, we designed and built a commissioning and distribution centre in Cheshire to compliment our installation and support services. We insure your investment, we store it securely, our bespoke stock system will track every single item in and out, and we have built up a valuable knowledge of build processes. All of which makes J Brand an ideal choice for any hardware deployment projects. Together with our multiskilled, nationwide workforce, J Brand can provide professional project management for installation and deinstallation services including the electrical, data network, wireless requirements and redundant equipment associated with the Hardware Deployment.

CONSULTANCY & RESOURCE

Planning is key to the success of any project, as is trained resource and experienced project management. We can assist in the early stages of project discussions, and will always ensure that we invest in any training required to meet the specified scope of works. We have a core of over 100 permanently employed operatives, and have excellent staff retention – which is key for experience and consistency.

MAINTENANCE & SUPPORT

J Brand will support any existing network, but if we have installed it, then who better to support it ! We have a dedicated support team and, will tailor the support to meet your requirements, whether it be a fixed SLA or reactive agreement. Our spread of multiskilled engineers are perfectly suited to support your networks.

DATA DESTRUCTION & IT RECYCLING

Our subsidiary business, Canopus Solutions, have developed a range of services in response to the increasing importance of Data Protection legislation (GDPR) and the WEEE Directive. Based in our Cheshire facility, the team at Canopus will ensure that your redundant equipment is collected, tracked, itemised, processed, deliver standard compliant certification that 100% of your data has been securely destroyed and, offer a financial return as a result of ethical recycling. So, please don't let your redundant IT kit 'pile-up' and devalue the potential sell on price that you could use to reinvest in new equipment !

If you would like to arrange a session to discuss further or simply have a query or requirement, please contact Guy Jones or Dan Little on: **020 7636 8214 or gjones@jbrand.co.uk / dlittle@jbrand.co.uk**
